*Record = H2H + weekly median where the league used one (2024 onward; 2022 ESPN and 2023 standings are H2H only). **Starter TDs = pass + rush + rec + IDP + return TDs by starters, regular season (2022 from ESPN box scores; team D/ST and DEF TDs not counted). High/low week = any real weekly game incl. playoff and consolation legs, shown as (season-week). Partial seasons count in career totals: Mike 2024 Wks 1-6, Matt Z 2024 Wks 7-17, and 2026 through Week 3. Titles: 2022 Deion & Jared co-champions.

2022 and 2023 records are H2H only (13 games); 2024+ include the median game (26 or 22 results). Compare win pct and PPG, not raw totals. Mike's and Matt Z's 2024 and all 2026 records are partial and not ranked.

Caveats

- Scoring differs by season (page 1): 2022 ESPN had K and D/ST, 2023 Sleeper had K and team DEF, 2024+ has IDP. Season length: 13 regular-season games in 2022-2024, 11 in 2025. Compare points per game and win pct, not raw totals.
- Records: 2022 (ESPN) and 2023 (Sleeper standings) are H2H only; 2024+ add the weekly median game.
- 2022 player data comes from ESPN box scores; starter points match every 2022 weekly score. Team D/ST (2022) and team DEF (2023) TDs are not counted as starter TDs.
- 2024 Week 7 uses Sleeper's official standings totals: Juan 118.34, roster 2 98.94, Matt F 96.66, Lij 97.44. Trades reversed after the Sunday games left those starters at 0 in Sleeper's matchup data (Juan showed 43.20). Every 2024 record and PF now matches the standings.
- Mike 2024 (Wks 1-6, left at 11-1), Matt Z 2024 (Wks 7-17) and 2026 (through Wk 3) are partial: counted in careers, not ranked in season records.
