2022 and 2023 records are H2H only (13 games); 2024+ include the median game (26 or 22 results). Compare win pct and PPG, not raw totals. Mike Dewey's and Matt Z's 2024 and all 2026 records are partial and not ranked.

Caveats

- Scoring differs by season (page 1): 2022 ESPN had K and D/ST, 2023 Sleeper had K and team DEF, 2024+ has IDP. Season length: 13 regular-season games in 2022-2024, 11 in 2025. Compare points per game and win pct, not raw totals.
- Records: 2022 (ESPN) and 2023 (Sleeper standings) are H2H only; 2024+ add the weekly median game.
- 2022 player data is N/A (the saved ESPN data has final scores only), so TDs, yards and individual starts are Sleeper 2023+. 2023 team-DEF TDs are not counted as IDP TDs.
- 2024 Week 7 (week of the overturned Mike Dewey / Matt Froemming trade): Sleeper's official standings credit Juan +75.14, roster 2 +20.84 and Matt Froemming +28.86 more than the current matchup data, which flips four median results. Official records are used (Juan 20-6, Doug 18-8, Matt Froemming 7-19, Andrew 6-20); PF and weekly scores use the matchup data (Juan's 43.20 that week).
- Mike Dewey 2024 (Wks 1-7), Matt Z 2024 (Wks 8-17) and 2026 (through Wk 3) are partial: counted in careers, not ranked in season records.
